All Gym Leaders have certain battle skills.

01 The Role of Gym Leaders

"Gym Leaders" are picked by the Pokémon Association, who answer the call to devote time and efforts to improve on battle skills and training of Pokémon. In most of the games, these leaders are also known to be "experts" or the best trainer in a certain Pokémon type. And sometimes, they lend their talents outside out of trouble (Chapter 151 etc.)

The Basic System

There's The Gym Leader more! System!!

Close Examination to seven areas-

02 How does a trainer challenge Gym Leaders?

Trainers come to gym and challenge the various leaders to test their newly acquired skills. This is all for pushing themselves to new limits. However, this does not mean that a battle is granted just by going to the gym. It is up to the leader whether he accepts the challenge (Chapter 4, 13 etc.)

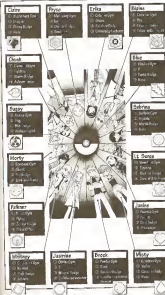

Trainers who are accepted for their battle skills will be awarded badges. But these badges are hidden in machines and trainers who actually received all eight badges are the

Personal Data of 16 Gym Leaders from Kanto and Johto

The data of all the 16 leaders are summarized in this paper.

▲ Of course, trainers who challenge the leaders will get a badge.

04 Badges and Qualifications for Leaders on League

All the gym leaders have the same subject in living out badges. And the Pokémon Association has laid out rules on getting Trainers, who manage to collect all the badges, will be able to step the platform to the finals of the Pokémon League. This regulation is only implemented in the Pokémon League. It is hence expected that more trainers will be challenging the gym leaders. (Chapter 104)

Trainers from Kanto and Johto will see about a Badges badge from trainers to their respective areas.

Reference: Design Energy Amplifier

These badges from the gym leader were once passed by children, such as Team Rocket and the Elite Four to obtain powerful energies with the help of this amplifier. In order to fight this powerful energy of the badges, the association has laid out the new regulation, so that people can gain energy inside the badge and in the strong and wild.

05 Integration Examination and Qualifications

Each leader is selected carefully by the Association. An examination is carried out to test applicants' inside skills, knowledge and personalities etc. to check their quality to be a leader. (Chapter 104)

06 Gym Leaders' Income

The Association provides each gym with a reasonable amount of "Gym Management Fee". However, the gym leaders can choose to continue with their jobs and receive a block of the gym leaders have continued to work as before, even after being designated as leaders (refer to Personnel Data on page 205). Hence they can also be seen outside of the gym's network. (Chapter 115, 156 etc.)

07 Exhibition Match: Tournaments of the Gym Leaders

As trainers rarely have a chance to battle a Pokémon trainer between two leaders, the Association has decided to organize this Exhibition Match of the Gym Leaders. Trainers can have a chance to find out about the leaders' prowess as this (Chapter 104)

Leader Cynthia Giffa

After being selected as Champion of the Pokémon League, Cynthia Giffa will be the first leader.
